SINGLE PAPER REVIEW

n by which the quality of the conference paper is judged. Because of the number of scientific research articles published each year, the quality of the peer-e on a conference reputation, Impact Factor (IF), and standing in the field. Quality scientific publishing peer-reviewed articles depend heavily on the pically volunteer their time and expertise.

elieves that reviewers have the responsibility to identify strengths and provide constructive comments to help the author resolve weaknesses in their ver should respect the intellectual independence of the author. Although reviews are confidential, all anonymous comments should be courteous and y. We consider at least two reviewers are solicited to evaluate a manuscript. This may be required in situations where a review by a statistician is needed. In ement regarding the merits of the work, an additional review may also be solicited, or the publication chair might give an evaluation.

ee reviewers if reviewers from several fields are needed to obtain a thorough evaluation of a paper. In addition to fairness in judgment and expertise in the nsibilities toward authors, editors, and readers. Finally, we request to the reviewers if there is any conflict of interest then please refuse to review any ur wonderful support of the author/s and conference. By considering these, as a reviewer are you keen to proceed?
